Use Policy to read;

Schedule 'A'

City Vehicle Assignment Methods

City Vehicles are assigned in one of three ways:

- 1) Dedicated
- 2) Assignment of a Pool Vehicle (Infrequent Use)
- 3) Assignment of a City Vehicle to an Employee and/or Position

1) Dedicated Vehicle

Dedicated vehicles are assigned to a department on an annual basis. They are assigned on a day-to-day basis by the immediate supervisor based upon job description and will be consistent with departmental workload and employee function.

2) Assignment of a Pool Vehicle

Pool vehicles are vehicles assigned for use on a request basis as needed. The Fleet Division maintains a pool of vehicles to supplement dedicated vehicles on a seasonal basis, for out of town use and for casual use when vehicles are in for service or individuals require local travel on an as-needed basis.

A pool vehicle is also assigned to City Hall and is available through the City Engineer's office at City Hall.

Seasonal

- User departments provide their seasonal requirements to the Fleet Division.
- Fleet Division will assign vehicles from the pool and charge monthly to the user.
- If there is not a seasonal unit available, the Fleet Division will make arrangements for an external rental.

Out of Town

- A cost/benefit analysis regarding the number of out of town pool vehicles available at any given time is performed by the Fleet Division and Finance annually.

Casual Use

- User requests a pool vehicle prior to or when required from the Fleet Division or the City Engineer's office.
- For the Fleet Division's pool vehicles, the user provides the Fleet Division with a chart field for billing of vehicle usage. The user will be charged the rental rate associated with that class of vehicle until it is returned by the user.
- Loaner vehicles are not provided free of charge to users who require replacements for vehicles brought in for service. Exception may be made for units that require a significant amount of downtime.

3) Assignment of a Vehicle to an Employee and/or Position

Vehicles assigned to an employee and/or position are vehicles that are for use specifically by an employee and/or a position. Employees and/or positions must meet eligibility criteria and the assignment must be approved by the Chief Administrative Officer.

“Accident” –an incident whereby a City owned vehicle/equipment has come into contact with another vehicle/equipment, person or object regardless of damage or injury, or an incident with or without contact that results in injury to a person, property, vehicle or equipment.

“City Vehicle” – any licensed or unlicensed automobiles, trucks, vans, or other self-propelled equipment owned, rented, or leased by the City of Windsor.

“Car Allowance” – payment that employees receive from an employer for using their own vehicle in connection with or in the course of their office or employment without having to account for its use. An allowance is a taxable benefit unless it is based on a reasonable per-kilometre rate.

“Commercial Motor Vehicle” – a commercial motor vehicle includes:

- Trucks that have a registered gross weight of over 4,500 kilograms
- Buses that can carry ten or more passengers
- Trailers that have a registered gross weight greater than 2,800 kilograms, when pulled by a truck that is less than 4,500 kilograms and the overall weight is greater than 4,500 kilograms.

A commercial motor vehicle does not include fire apparatus.

“Dedicated Vehicle” – a vehicle assigned to a department or division on an annual basis.

“Distracted Driving” – Drivers in Ontario are prohibited from using hand-held cell phones and other hand-held electronic entertainment or communications devices while driving. The use of hands-free devices is permitted. Emergency calls, such as calls to 911, are not affected.

“Licensed motor vehicle” – any motor vehicle to which a number plate is attached as required under the Highway Traffic Act.

“Pool Vehicle” – a general purpose City Vehicle supplied by the City of Windsor which can be used on a request basis as needed.

“Valid Driver’s License” – (a) appropriate to the vehicles being driven; or (b) specified by the department.

Schedule 'C'

Break Even Point for Assignment of a City Vehicle

Individual mileage claims will be monitored on an annual basis by the Finance Department.

Once an individual's annual reimbursement exceeds the annual charge out rate for a rental vehicle (based on the Class of vehicle used), an assessment of whether or not a dedicated vehicle should be provided to the employee will take place.

Consideration will also be given to other individuals in the department to see if vehicles can be rationalized and shared amongst employees/positions.

The analysis will involve comparing annual mileage paid at the current Corporate Travel Policy rate (based on CCRA guidelines) against the annual vehicle rental rate charged by the Fleet Division for the Class of vehicle being used on a 'cost per km' basis.

If the cost of providing a dedicated unit is lower than payment of individual mileage over the course of a year, the Fleet Manager, in conjunction with the individual's Manager, will bring forward a recommendation to the Fleet Review Committee that a dedicated vehicle be issued.

The criteria for determining the cost/benefit of a dedicated unit, and an individual's eligibility, will be reviewed on an annual basis by the Fleet and Finance areas.
