NOTICE OF PUBLIC INFORMATION CENTRE

Sandwich Street Reconstruction - Gordie Howe International Bridge project

Dear Property Owner / Resident,

Recognizing Sandwich Street's role as a gateway community to Canada and in response to public consultation, the WDBA (Windsor Detroit Bridge Authority) is investing in improvements to Sandwich Street as part of the Gordie Howe International Bridge project.

Approximately 3 km of Sandwich Street from the intersection of Sandwich Street and Ojibway Parkway to the Rosedale Avenue roundabout will see improvements to the current infrastructure, including new curbs, sidewalks, trails, new pavement, bike lanes and streetscaping features.

Walk Wheel Windsor, the City of Windsor's Active Transportation Master Plan, identifies Sandwich Street from Rosedale Ave. to Chappell Ave as a "connector" in the cycling network.

Sandwich St from Brock St to Chappell St currently has parking on both sides. In order to accommodate bike lanes within the existing pavement width, parking will need to be eliminated on one side of Sandwich St in these blocks.

An online Public Information Centre (PIC) by the City of Windsor is being held to provide information and receive feedback from the public and stakeholders. Information on the project including Comment Form and online PIC link is available at the City of Windsor's website <http://www.windsoreas.ca/> under "Schedule A+ Projects"

The online Public Information Centre is scheduled for:

Date: September 3rd, 2020

Time: 4:00 to 6:00 pm

PIC Online Session Link (Passcode: 001640):
