Official Plan Amendment

Building & Development
 Department

1

The Corporation of
 The City of Windsor

What is an Official Plan?

The City of Windsor Official Plan is a policy document adopted by City Council under the provisions of the Ontario Planning Act. As such, it reflects matters of provincial interest and describes the future direction of the City of Windsor and how land is to be used.

It also provides the basis for the zoning by-laws applying to all properties in the city.

Under the Planning Act, Official Plans are required to be reviewed at intervals of not less than once every five years. The review ensures the plan remains relevant to the changing circumstances within Windsor and to current provincial legislation, policies and appropriate guidelines.

When is the Official Plan amended?

Sometimes, it is necessary to amend the plan to provide appropriate policy or land use designation for development that was not anticipated when the plan was prepared. As a property owner, one can make an application to amend the City of Windsor Official Plan at the Building & Development Department.

In some cases, the Official Plan requires that specific studies and assessments be submitted before City Council can consider a change.

Using the plan as a guide, City Council may adopt more detailed planning policies such as secondary plans and community improvement plans for specific neighborhoods. City Council also directs the development of new subdivisions.

Pre-Consultation

Prior to a submission, all applicants should contact the Building & Development Department to determine what supporting documents and studies will be required to evaluate the proposal, to verify information on the application, and to clarify the procedures to follow.
