

## Ontario and Windsor – Essex Kindergarten Parent Survey 2011/2012 Summary Report

The Kindergarten Parent Survey (KPS) is a joint initiative by the Offord Centre for Child Studies, McMaster University and the Ontario Ministry of Children and Youth Services seeking to collect information on the development of children. The survey, used in conjunction with the Early Development Instrument (EDI), was meant to provide additional information on the early life experiences of kindergarten children and their families with the hopes of identifying factors that can be used towards better preparing pre-grade school children for their learning careers. Across Ontario for the 2011/2012 KPS collection, there was a response rate of 44.7%. Below is a table of the response rate by Ontario Site. Herein, results from all returned 2011/2012 surveys across Ontario are reported.

The local Data Analysis Coordinator has added the results from Windsor-Essex for comparison.

| Site  | Participating in KPS collection | KPS returned |            | Total EDIs |
|---|---------------------------------|--------------|------------|------------|
|   |                                 | Count        | Percentage |            |
| Algoma  | Yes                             | 124          | 45%        | 273        |
