**QUESTIONS/ANSWERS:**

**Question #1:**

The deadline for completion of the Class EA, including notice of completion, is identified as September 2020 (Appendix G, 2). Can the City please confirm this is the required completion date? Considering the Schedule C planning process, mandatory consultation that is involved, as well as potential environmental fieldwork, please confirm that the date is accurate and firm.

**Answer:** Proponents shall note that the deadline for completion of this Class EA and Notice of Completion has been extended to **December 1, 2020**. However, a high level cost estimate is still required by September 1, 2020.

**Question #2:**

Please identify what, if any, feasibility studies, surveys, environmental surveys, reports, etc. have been undertaken, and if these can be provided during the RFP process.

**Answer:** No feasibility studies, surveys, environmental surveys, or reports have been undertaken for this project.

**Question #3:**

The RFP does not include requirements for environmental field work. Considering the schedule, and the need to site the structure, please provide information on the anticipated environmental field work that may be required.
