#### **CQ53-2015**

SR2015

Carried.

Moved by Councillor Holt, seconded by Councillor Kusmierczyk,

**M364-2015** That the following Council Question by Councillor Bortolin **BE APPROVED**, and that Administration **BE DIRECTED** to proceed with the necessary actions to respond to the Council Question in the form of a written report, consistent with Council's instructions, and in accordance with Section 17.1 of the Procedure By-law 98-2011:

#### **CQ54-2015**

Asks in light of the size and scope of the Environmental Assessment (EA) being conducted for the Central Box and the lengthy timelines predicted for work to begin on the stretch of Dougall Avenue from Eugenie to Grand Marais, and considering the number of inquiries regarding safety that the WBC (Windsor Bicycling Committee) receives with respect to this area, I am asking Administration to produce a report with some suggestions for immediate infrastructure investments that can be made to improve cycling and pedestrian safety on that stretch of Dougall Avenue. Examples are increased signage for both drivers and cyclists, designated street markings, painted street markings, merging warnings coming off the expressway. While a long term solution is coming through the central box study, we can and should be looking to improve safety in that corridor as it is one of the main north-south corridors in the city.

**CQ56-2015**

Asks Administration to provide information regarding the process used to determine where detours are directed during road work in the city in particular those that direct Transit Windsor buses onto residential neighbourhood streets – I continue to deal with concerns of residents and safety issues on Jefferson with the detour from the Wyandotte project as there is a non-signalized entry onto Riverside Drive and you are dealing with a narrow roadway because of the large boulevard.

Request asks for a Traffic Calming from the Dougall underpass (CP) to Tecumseh Road by lowering the speed limit from 60 km to 50 km. noting that this is a high risk route due to narrow pedestrian walk paths and limited access for cyclists. Until the Central Box infrastructure initiative is complete, this will help enhance safety and help mitigate potential liability for the City Corporation.
