11.4. Proposed redevelopment of the former Concord School Site at 6700 Raymond Ave. - City Wide

Councillor Holt requests clarification related to how this type of recommendation based on a survey of the residents related to the redevelopment plans was developed. Neil Robertson, Manager of Urban Design / Deputy City Planner, appears before the Development & Heritage Standing Committee regarding the administrative report entitled "Proposed redevelopment of the former Concord School Site at 6700 Raymond Ave. - City Wide" and provides a brief background and history related to this property and the plans for the whole property which were scaled back from the original concept following Council direction.

Councillor Holt inquires as to the Planning Department's opinion of the best use for this property. Mr. Robertson indicates they are keeping it close to what Council wanted in the original recommendation. Mr. Robertson provides information related to the zoning, higher density housing and the plan presented.

Councillor Holt questions the current proposal, and that it is not higher density. Mr. Robertson provides information related to the original concept plan where higher density would have been more appropriate closer to Wyandotte Street and how this portion is being suggested for a lower type of density.

Councillor Holt expresses concern with setting a precedent in relation to other proposed developments where surrounding occupants would get to select the type of developments that are

being propped for neighbouring properties. Mr. Robertson indicates that surrounding residents were polled, suggestions were provided and Council makes the decision.

Councillor Bortolin expresses concern with Council's decision to not recommend higher density housing, and administration's survey questions which contained selection options that were mostly lower density options. Mr. Robertson provides details related to the survey questions and indicates that the property has not been vetted for affordable housing.

Area residents are opposed to the proposed development citing the following concerns:

- Scale of the building – proposed as 12 stories more than Dieppe Towers – gross overreach. Request building to be more proportionate to lot and in line with surrounding structures
- Eventual closure of Janette Ave during the 2nd phase – essential for tenants access from Riverside Drive as Janette is one-way driving southbound. Bruce Avenue runs northbound one-way
- Obstruction of views
- Loss of historical neighbourhood, creating a concrete wall along riverfront
- Additional traffic, noise, pollution and poorer air quality
- Cleanliness
- Parking availability

Justina Nwaesei (author) – Planner III – Subdivisions

Ms Nwaesei provides a presentation of the proposed development. Notes the Site Plan is a Concept Plan only and is not to be taken as the final proposed building plan.

Karl Tanner (agent) – Dillon Consulting – in agreement with Administration’s recommendation with the exception of item III (a). Mr Tanner advises they will meet with area residents to address their concerns prior to the report going to Council.

Area residents are in support of the residential development but note the following concerns:

- Footprint of the proposed building – don’t like the angle or the proximity to the neighbouring property immediately west
- Concerned over fence separating the development from the neighbour – it may provide a hiding place for homeless to rest in overnight – already has issues with homeless trying to enter the property
- Request the developer consider a 4-storey building to keep in line with the history and heritage of the neighbourhood – also concern over shade if building is larger
- Concern if the development will impact any possible ADU’s in the neighbourhood
- Interest in more public engagement
