526/94 That Appendix E of the Streetlighting Policy approved by Council Resolution 982/82 on August 16, 1982 BE AMENDED as follows:

- I. That Paragraph B(1) BE DELETED and the following be substituted therefore:

LOCAL MINOR AND COLLECTOR STREETS

Type I - Standard Streetlighting -One Hundred Watt (100) High Pressure Sodium Luminaires, mounted at a height of 7.2 metres on concrete or fibre glass poles spaced 49 metres apart, along one side of the street with underground wiring; (City of Windsor Standard Drawing AS-509).

Type II - Ornamental Streetlighting - Single Luminaire -One Hundred Watt (100) High Pressure Sodium luminaires mounted at a height of 4.57 metres on concrete poles with underground wiring (City of Windsor Standard Drawing AS-521) spaced 30 metres apart along one side of the street for local streets and 25 metres apart staggered on opposite sides of the street for minor collector streets.

Type III - Ornamental Streetlighting - Double Luminaire -One Hundred Watt (100) High Pressure Sodium luminaires mounted at a height of 4.27 metres on concrete poles with underground wiring (City of Windsor Standard Drawing AS-522) for median or boulevard installations as applicable.

- II. That Paragraph C(e) BE DELETED and the following be substituted therefore:

Item C(e) ORNAMENTAL STREETLIGHTING - (TYPE II, III)

In the case where owners have petitioned successfully under The Local Improvement Act for ornamental lighting, the entire cost difference between standard streetlighting and ornamental lighting will be charged to the benefiting owners, as part of the Local Improvement assessment.

In cases where obsolete, antiquated lighting units have been deemed uneconomical to maintain, this cost difference will form the total cost assessment to the benefiting owners. In all other circumstances, the cost described in Items (C) (iv) will be in addition to the cost difference noted above.

and further, Standard Drawings AS-521-Ornamental Streetlighting Single Luminaire (Type II) and AS-522-Ornamental Streetlighting Double Luminaire (Type III) BE APPROVED.

Carried.
