

## **LITTLE RIVER POLLUTION CONTROL PLANT EXPANSION MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT**

### **THE STUDY**

The City of Windsor is undertaking a Schedule 'C' Municipal Class Environmental Assessment (Class EA) for the Little River Pollution Control Plant (LRPCP). The study objective is to follow the planning process defined under the *Environmental Assessment Act* to arrive at an environmentally responsible and cost-effective solution to address the need for additional wastewater treatment capacity at the LRPCP. This study will satisfy Phase No.'s 1 through 4 of the Class EA process and will conclude with an Environmental Study Report to document consultation activities and design recommendations.

### **PROJECT BACKGROUND**

In 2020, the City of Windsor endorsed its first comprehensive Sewer and Coastal Flood Protection Master Plan (SMP). The SMP identified treatment capacity issues at the LRPCP and confirmed that during severe wet weather conditions the facility is unable to treat all wet weather flow. In 2021, the City of Windsor initiated a master servicing plan for the Sandwich South Area geared towards providing the required municipal infrastructure in support of growth. The SSMSPP, outlined limitations of the existing LRPCP and recommended to increase the capacity to accommodate the development in Sandwich South. Additional information regarding this Class EA can be found on the City's project website:

### **PUBLIC INFORMATION CENTRE NO. 2**

**Wednesday April 23<sup>rd</sup>, 2025  
3:00 p.m. – 6:00 p.m.**

**WFCU Centre  
Ontario Room  
8787 McHugh Street, Windsor, ON**

### **PUBLIC CONSULTATION**

The City is hosting a Public Information Centre (PIC) to present the alternative design solutions for the Little River Pollution Control Plant Class EA. Consultation is an integral part of the EA process and members of the public, agencies, and other interested persons are invited to participate in the upcoming PIC. Following the PIC, comments are welcomed and will be received until May 23<sup>rd</sup>, 2025.
