1.0 INTRODUCTION

I have been retained by Baker Investments Limited (herein the "Applicant"), to provide a land use Planning Rationale Report (PRR) in support of a proposed development to be located at 0 Wyandotte Street East (herein the "Site") in the City of Windsor, Province of Ontario.

The Site, in Ward 6 (Riverside Planning District), is made up of one (1) corner parcel of land, which is currently vacant.

The Site is located on the east side of Watson Avenue and on the north side of Wyandotte Street East.

It is proposed to develop the Site for residential use.

It is proposed to construct a new 6 storey multiple dwelling (apartment) with 86 residential dwelling units.

A total of 108 parking spaces are proposed, with access from Watson Ave. and Wyandotte St. E.

The tenure of each unit will be rental.

The Site has access to full municipality services.

A site-specific Zoning By-law Amendment (ZBA) is required in support of the proposed development.

Once the ZBA application has been approved, the Applicant will proceed with a Site Plan Control Application (SPC) prior to any site alterations or building permit.

Pre-consultation (stage 1) (City File #PC-061/24) and pre-submission (stage 2) (City File#PC-091/24) were completed by the Applicant. Comments have been reviewed and incorporated into this PRR.

The purpose of this report is to review the relevant land use documents, including the Provincial Planning Statement 2024 (PPS), the City of Windsor Official Plan (OP), and the City of Windsor Zoning By-law (ZBL).

This PRR will show that the proposed development is suitable, consistent with the PPS, conforms to the intent and purpose of the OP and ZBL, and represents good planning.

2.0 SITE AND SURROUNDING LAND USES

2.1 Legal Description and Ownership

The Site is made up of one (1) corner parcel of land, which is currently vacant.

The Site is located on the east side of Watson Avenue and on the north side of Wyandotte Street East (see the area in red on Figure 1 – Site Location).

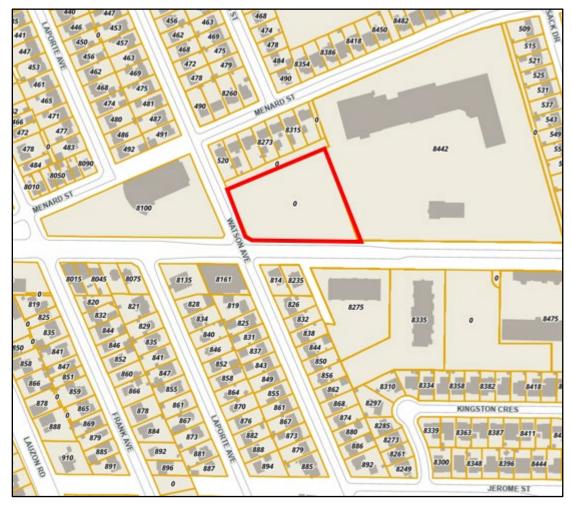

Figure 1 – Site Location (Source: Windsor GIS)

The Site is part of the Riverside Planning District and is located in the City of Windsor Ward 6.

The Applicant does own the lands to the north side of the Site; however, it is not part of this ZBA application.

The Site subject to the proposed development is owned, locally known as and legally described as follows:

| Address | Legal Description | ARN | Owner | Purchased Date |
|----------------------------|----------------------|-----------------------------|--|----------------|
| 0 Wyandotte Street East | PLAN 1628 BLK A | 3739-060-330- 00100-0000 | Murray-Colqueen Investments Limited amalgamated in Baker Investments Limited | 1973 |

2.2 Physical Features of the Site

2.2.1 Size and Site Dimension

The Site, subject to the proposed development, consists of a total area of 7,836.9 m2 (0.78 ha), with approximately 50 m along Watson Ave., and approximately 100 m along Wyandotte St E.

The Site is irregular in shape.

2.2.2 Existing Structures and Previous Use

The Site is currently vacant.

The previous use is unknown.

2.2.3 Vegetation and Soil

The property currently has a mown lawn.

The soil is made up of Clyde Clay (Cc).

2.2.4 Topography and Drainage

The Site is generally level and is within the Essex Region Conservation Authority (ERCA) regulated area.

The Site is part of the Windsor Area Drainage.

The Site is part of a Source Water Protection Event Based Area (EBA).

2.2.5 Other Physical Features

Fencing is located along the north portion of the Site and is owned by others.

2.2.6 Municipal Services

The property has access to municipal water, storm, and sanitary services.

Wyandotte Street East is a Class II arterial road, and Watson Ave is a local road.

The Site has access to transit with the closest bus stop on the northwest corner of Watson Avenue and Wyandotte Street East (Stop ID 2010, Bus #10).

The Site has access to major roadways such as Wyandotte Street East and Lauzon Road.

2.2.7 Nearby Amenities

There are many schools, including St John Vianney Catholic Elementary School, MS Hetherington Public School and Riverside Secondary School/

Nearby parks include Alan Crescent Pocket Park, Marina Park and Boardwalk Public Park.

The closest library is Riverside Public Library.

There is nearby shopping in the form of plazas and malls, as well as employment, places of worship, and local amenities.

2.3 Surrounding Land Uses

Overall, the Site is in an existing built-up area.

The area is characterized by a mix of residential and commercial uses.

A site visit was conducted, and photos were taken on July 23, 2024, by Pillon Abbs Inc.

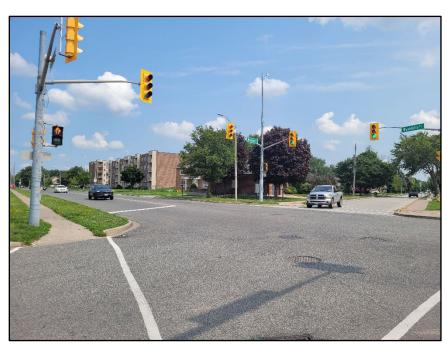

The following is a summary of the surrounding land uses.

North – The lands north of the Site are used for residential with frontage along Watson Ave and Menard St (see Photo 1 – North).

Photo 1 – North (Source: Pillon Abbs Inc.)

 ${f South}\,$ – The lands south of the Site are used for residential and commercial (see Photos 2 - South).

Photos 2 – South (Source: Pillon Abbs Inc.)

East - The lands east of the Site are used for commercial (see Photo 3 - East).

Photo 3 – East (Source: Pillon Abbs Inc.)

West - The lands west of the Site are used for commercial (see Photo 4 - West).

Photo 4 – West (Source: Pillon Abbs Inc.)

3.0 PROPOSAL AND CONSULTATION

3.1 Development Proposal

The Site, in Ward 6 (Riverside Planning District), is made up of one (1) irregularly shaped corner parcel of land, which is currently vacant.

It is proposed to develop the Site for residential use.

It is proposed to construct a new (stand-alone) 6 storey multiple dwelling (apartment) with 86 residential dwelling units.

A concept plan was prepared (see Figure 2a -Concept Plan).

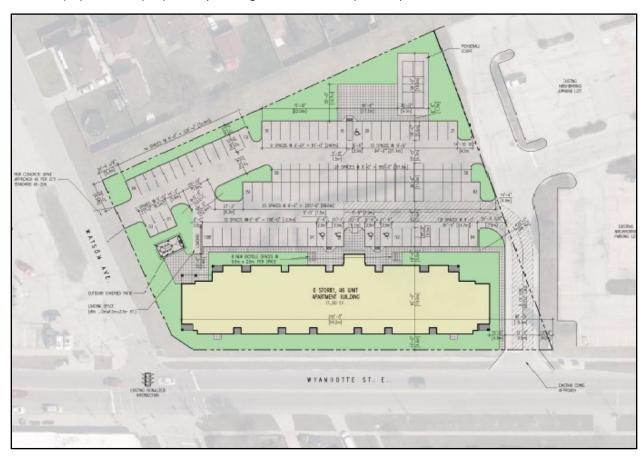

Figure 2a -Concept Plan

The Concept Plan is preliminary in order to illustrate how the Site can be developed.

The building area of the proposed dwelling will occupy a total of 1,621.2 m2 of the Site with a total lot coverage of 20.7%.

The proposed building height is 21.0 m.

The tenure of each unit will be rental.

Based on the Site area (0.78 ha) and the proposed number of residential units (86) the proposed development will result in a density of 110.26 units per hectare (uph).

The proposed dwelling will face Wyandotte Street East. Conceptual elevations of the proposed dwelling have been prepared (see Figure 2b – Elevations).

Figure 2b – Conceptual Elevations

The Conceptual Elevations are preliminary in order to illustrate how the Site will look from the ground level.

Landscaping and amenity space will be provided, including private balconies, a pickle ball court, an outdoor patio and an outdoor covered patio area.

Paved parking and sidewalks are provided.

A total of 108 parking spaces are proposed, with access from Watson Ave. and Wyandotte St. E.

Bicycle, visitor and barrier free parking is provided.

The refuse (garbage and recycling) will be located inside the building. The pick-up of refuse is yet to be determined.

Loading space is provided.

The Site will be serviced with full municipality services (sewer, water and storm).

3.2 Public Consultation Strategy

In addition to the statutory public meeting, the *Planning Act* requires that the Applicant submit a proposed strategy for public consultation with respect to an application as part of the complete application requirements.

As part of a public consultation strategy, in addition to the statutory public meeting, an informal electronic public open house was held with area residents and property owners on Wednesday, August 21, 2024, from 6:00 pm to 7:00 pm.

The open house provided members of the public with opportunities to review and comment on the proposed development.

A total of 366 owners and tenants were notified, which represents a 200 m radius from the Site.

In addition to the applicant representatives and City of Windsor Staff, there were 7 residents registered for the open house.

There were phone calls and emails received.

The following is a summary of the comments and questions received, along with the responses provided.

| Topic Item | Comments and Questions | Response |
|------------|-----------------------------------|----------------------------------|
| Traffic | Traffic is already too much. | A TIS was not warranted for this |

| | Home Hardware does not have any parking. | |
| Schools | There are 2 schools in the immediate area. | No TIS was warranted for this type of development. |
| | Busses take Watson in the mornings and afternoons. | |
| Privacy | Are there balconies? | Yes, there are private balconies, but they are recessed. |
| Next Steps | What are the next steps? | Planning process was explained. |

4.0 APPLICATION AND STUDIES

Pre-consultation (stage 1) (City File #PC-061/24) and pre-submission (stage 2) (City File#PC-091/24) were completed by the Applicant. Comments have been reviewed and incorporated into this PRR.

The following explains the purpose of the application as well as a summary of the required support studies.

4.1 Zoning By-law Amendment

A site-specific Zoning By-law Amendment (ZBA) is required in support of the proposed development.

The current zoning of the Site, subject to development, is the Commercial District 2.1 (CD2.1) category, as shown on Map 14 of the City of Windsor Zoning By-law #8600.

It is proposed to change the zoning to Residential District 3.2 (RD3.2 - S.20(1)(XXX)) category to permit a multiple dwelling.

No relief from certain regulations is required.

The ZBA is detailed, and the justification is set out in Section 5.1.3 of this PRR.

4.2 Other Application

Once the ZBA application has been approved, the Applicant will proceed with a Site Plan Control Application (SPC) prior to any site alterations or building permit.

4.3 Supporting Studies

4.3.1 Sanitary

A Sanitary Sewer Study was prepared by Aleo Associates Inc., Consulting Engineers, dated July 16, 2024, and further updated on September 25, 2024.

The purpose of the report was to assess the existing services for the purpose of determining the capacity available to accept the increase as a result of the proposed development.

It is determined that the services have the capacity to support future development.

5.0 PLANNING ANALYSIS

5.1 Policy and Regulatory Overview

5.1.1 Provincial Planning Statement

The Provincial Planning Statement, 2024 (PPS) provides policy direction on matters of provincial interest related to land use planning and development, providing for appropriate development while protecting resources of provincial interest, public health and safety, and the quality of the natural and built environments.

The PPS was issued under Section 3 of the Planning Act and came into effect on October 20, 2024.

The following provides a summary of the key policy considerations of the PPS as it relates to the proposed development.

| PPS Policy # | Policy | Response |
|--|--|---|
| Chapter 1 - Vision | Ontario will increase the supply and mix of housing options, addressing the full range of housing affordability needs. Every community will build homes that respond to changing market needs and local demand. Providing a sufficient supply with the necessary mix of housing options will support a diverse and growing population and workforce, now and for many years to come. | The proposed development provides more housing. |
| Chapter 2.1.4 – Buildings Homes, Sustaining Strong and Competitive Communities | To provide for an appropriate range and mix of housing options and densities required to meet projected requirements of current and future residents of the regional market area, planning authorities shall: a) maintain at all times the ability to accommodate residential growth for a minimum of 15 years through | The proposed development will help provide for a housing option and density to help meet the needs of the City. Full municipal services are available. |

| PPS Policy # | Policy | Response |
|-----------------|--|---|
| | lands which are designated and available for residential development; and b) maintain at all times where new development is to occur, land with servicing capacity sufficient to provide at least a three-year supply of residential units available through lands suitably zoned, including units in draft approved or registered plans. | |
| 2.1.6 | Planning authorities should support the achievement of complete communities by: a) accommodating an appropriate range and mix of land uses, housing options, transportation options with multimodal access, employment, public service facilities and other institutional uses (including schools and associated child care facilities, long term care facilities, places of worship and cemeteries), recreation, parks and open space, and other uses to meet long-term needs; b) improving accessibility for people of all ages and abilities by addressing land use barriers which restrict their full participation in society; | is consistent with the policy to achieve complete communities. |
| 2.2.1 - Housing | Planning authorities shall provide for an appropriate range and mix of housing options and densities to meet projected needs of current and future residents of the regional market area by: a) establishing and implementing minimum targets for the provision of | The proposed development is new housing for the area. The proposed development supports the City's targets to provide for more housing. The needs of the residents can be accommodated as the |

| PPS Policy # | Policy | Response |
|--------------|--|---|
| PPS Policy # | housing that is affordable to low and moderate income households, and coordinating land use planning and planning for housing with Service Managers to address the full range of housing options including affordable housing needs; b) permitting and facilitating: 1. all housing options required | Site is located near local amenities. The Site offers an opportunity for intensification and infilling of a vacant parcel of land. The proposed density is appropriate for the Site. Residents will have access to |
| | to meet the social, health, economic and well-being requirements of current and future residents, including additional needs housing and needs arising from demographic changes and employment opportunities; and 2. all types of residential intensification, including the development and redevelopment of underutilized commercial and institutional sites (e.g., shopping malls and plazas) for residential use, development and introduction of new housing options within previously developed areas, and redevelopment, which results in a net increase in residential units in accordance with policy 2.3.1.3; c) promoting densities for new housing which efficiently use land, resources, infrastructure and public service facilities, and support the use of active transportation; and | nearby transit. The Site was always intended for residential development. |
| | d) requiring transit-supportive development and prioritizing intensification, including | |

| PPS Policy # | Policy | Response |
|---------------------------|--|--|
| | potential air rights development, in proximity to transit, including corridors and stations. | |
| 2.3.1.1 – Settlement Area | Settlement areas shall be the focus of growth and development. Within settlement areas, growth should be focused in, where applicable, strategic growth areas, including major transit station areas. | The Site is located in an existing settlement area of the City of Windsor. |
| 2.3.1.2 | Land use patterns within settlement areas should be based on densities and a mix of land uses which: a) efficiently use land and resources; b) optimize existing and planned infrastructure and public service facilities; c) support active transportation; d) are transit-supportive, as appropriate. | for intensification and |
| 2.3.1.3 | Planning authorities shall support general intensification and redevelopment to support the achievement of complete communities, including by | The Site offers an opportunity for intensification and rounding out of the intersection. |
| | planning for a range and mix of | |

| PPS Policy # | Policy | Response |
|---|---|---|
| | housing options and prioritizing planning and investment in the necessary infrastructure and public service facilities. | The proposed development provides an infill opportunity of a vacant parcel of land. The Site was always intended for development. The design of the proposed development has provided a compact form. |
| 2.3.1.4 | Planning authorities shall establish and implement minimum targets for intensification and redevelopment within built-up areas, based on local conditions. | The City has established targets. The proposed development will assist in meeting those targets as the Site is located in an existing built-up area and will add new residential housing. |
| 2.3.1.6 | Planning authorities should establish and implement phasing policies, where appropriate, to ensure that development within designated growth areas is orderly and aligns with the timely provision of the infrastructure and public service facilities. | The Site has access to |
| Chapter 3.1.1 – Infrastructure and Facilities | Infrastructure and public service facilities shall be provided in an efficient manner while accommodating projected needs. | The proposed development has access to full municipal services. There are nearby public service facilities. |
| 3.3.3 - Transportation | Planning authorities shall not permit development in planned corridors that could preclude or negatively affect the use of the corridor for the purpose(s) for which it was identified. | The proposed development will not have a negative impact on nearby transportation and infrastructure corridors. |
| 3.6.2 | Municipal sewage services and municipal water services are the preferred form of | The proposed development will be serviced by municipal sewer, water and storm, |

| PPS Policy # | Policy | Response |
|--|--|--|
| | servicing for settlement areas to support protection of the environment and minimize potential risks to human health and safety. For clarity, municipal sewage services and municipal water services include both centralized servicing systems and decentralized servicing systems. | which is the preferred form of servicing for settlement areas. A Sanitary Report has been provided and summarized in Section 4.3.1 of this PRR. |
| 4.1.1 – Natural Heritage | Natural features and areas shall be protected for the long term. | There are no natural heritage features that impact the Site. |
| 4.2 - Water | Planning authorities shall protect, improve or restore the quality and quantity of water by: b) minimizing potential negative impacts, including cross-jurisdictional and cross-watershed impacts; | No water issues are anticipated. |
| Chapter 5.1.1 – Protecting Public Health and Safety | Development shall be directed away from areas of natural or human-made hazards where there is an unacceptable risk to public health or safety or of property damage, and not create new or aggravate existing hazards. | There are no natural or human-made hazards that apply to this Site. There is no risk to the public. ERCA permits will be obtained. |

Therefore, the proposed development is consistent with the PPS and the Province's vision for long-term prosperity and social well-being.

5.1.2 Official Plan

The City of Windsor Official Plan (OP) was adopted by Council on October 25, 1999, approved in part by the Ministry of Municipal Affairs and Housing (MMAH) on March 28, 2000, and the remainder approved by the Ontario Municipal Board (OMB) on November 1, 2002. The office consolidation version is dated September 7, 2012.

The OP implements the PPS and establishes a policy framework to guide land use planning decisions related to development and the provision of infrastructure and community services throughout the City.

The Site is part of the Riverside Planning District on Schedule A: Planning Districts & Policy Areas of the OP.

The current land use designation of the Site, subject to development, is 'Mixed Use Corridor', as shown on Schedule D: Land Use Plan of the OP (see Figure 3 –OP).

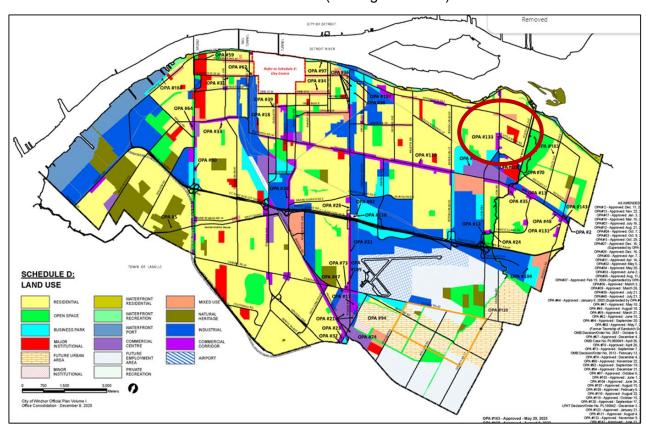

Figure 3 – OP

The following provides a summary of the key policy considerations of the OP as it relates to the proposed development.

| OP Policy # | | Policy | Response |
|-------------|-------------|---------------------------------|--------------------------------|
| 3.2.1.2 - | Development | Encouraging a range of | The proposed residential |
| Strategy | | housing types will ensure that | development supports one of |
| | | people have an opportunity to | the City's overall development |
| | | live in their neighbourhoods as | strategies of providing for a |
| | | they pass through the various | range of housing types. |
| | | stages of their lives. | |

| OP Policy # | Policy | Response |
|-------------------------|--|---|
| 4.0 – Healthy Community | The implementing healthy community policies are interwoven throughout the remainder of the Plan, particularly within the Environment, Land Use, Infrastructure and Urban Design chapters, to ensure their consideration and application as a part of the | The proposed development will support the City's goal of promoting a healthy community in order to live, work, and play. The proposed development is close to nearby transit, employment, shopping, local amenities, and parks. |
| 6.0 - Preamble | planning process. A healthy and livable city is one in which people can enjoy a vibrant economy and a sustainable healthy environment in safe, caring and diverse neighbourhoods. In order to ensure that Windsor is such a city, Council will manage development through an approach which balances environmental, social and economic considerations. | The proposed development supports the policy set out in the OP as it is suited for addressing the City's residential needs. |
| 6.1 - Goals | In keeping with the Strategic Directions, Council's land use goals are to achieve: 6.1.1 Safe, caring and diverse neighbourhoods. 6.1.3 Housing suited to the needs of Windsor's residents. 6.1.10 Pedestrian oriented clusters of residential, commercial, employment and institutional uses. | The proposed development supports the goals set out in the OP. The proposed residential use will provide a new housing choice in an existing built-up area. The proposed multiple dwelling is suited for the needs of future residents. The Site is pedestrian friendly and close to nearby amenities and major roadways. The Site was always intended for development. |

| OP Policy # | Policy | Response |
|---------------------------------|--|--|
| 6.2.1.2 - General Policies, | For the purpose of this Plan, | The proposed development is |
| Type of Development Profile | Development Profile refers to the height of a building or structure. Accordingly, the following Development Profiles apply to all land use designations on Schedule D: Land Use unless specifically provided elsewhere in this Plan: (a) Low Profile developments are buildings or structures generally no greater than three (3) storeys in height; (b) Medium Profile developments are buildings or structures generally no greater than six (6) storeys in height; and (c) High Profile developments are buildings or structures generally no greater than fourteen (14) storeys in height. | considered medium profile. |
| 6.5.3.1 – Mixed Use Corridor | Uses permitted in the Mixed Use Corridor land use designation are primarily retail, wholesale store and service oriented uses and, to a lesser extent, office uses. | Medium Profile is proposed based on the size of the Site, which is supported by this policy. The proposed development will be designed with a |
| | Medium and High Profile residential uses either as standalone buildings or part of a commercial-residential | pedestrian orientation and foster a distinctive and attractive area identity. |
| | mixed use buildings shall be throughout the Corridors. | The design will address compatibility. It will take into consideration the transition between land uses using an appropriate amount of setbacks and buffering. |
| 6.5.3.3 - Street Presence | Council will encourage Mixed- Use Corridor development to provide a continuous street | The proposed building will face Wyandotte St E. |
| | frontage and presence. Accordingly, development | The proposed height will be 6 storeys as Wyandotte St E is a Class II arterial road. |

OP Policy # Policy Response along a Mixed-Use Corridor shall be: The proposed building is to be located close to the roadway a) no more than four storeys to allow for maximum setback in height, except on lands at intersection of any from abutting residential lands to the north of the Site. combination of the following roads: Class I Arterial Road, Class II Arterial Parking is to be located at the Road, Class I Collector, or rear of the proposed building. Class II Collector Road. The height of buildings Access to the Site will be shall generally not exceed the width located away from the of the road right-of-way intersections. abutting the development site; and b) Notwithstanding the The design address will identified maximum building compatibility. | | which is distinguishable from access provided for vehicles; and (f) Council will adopt Design Guidelines that will | The building will be located close to the roadway creating an increase in setback from the abutting lands to the north. |
| | assist in the design and review of development applications in a manner that will ensure implementation of these policies. | |
| 7.0 - Infrastructure | The provision of proper infrastructure provides a safe, healthy and efficient living environment. In order to accommodate transportation | The proposed development is close to nearby transit, off a major roadway, and has access to full municipal services. |
| | and physical service needs in Windsor, Council is committed to ensuring that infrastructure is provided in a sustainable, orderly and coordinated fashion. | |
| City of Windsor Intensification Guidelines, June 2022 | Mixed Use Corridors are located along Arterial or Collector Roads and are expected to accommodate | The City's Intensification Guidelines have been reviewed. |

| OP Policy # | Policy | Response |
|------------------|--|---|
| | Low and Medium Profile built forms that include mixed use, retail, office, and residential development. | The Site is located in a mixed use corridor. The final design of the building is subject to the City of Windsor design guidelines. |
| 3.1 - Transition | Transition can be achieved through the regulations of the Zoning By-law through setbacks and height control. Through transition, the guidelines will consider: • Buffering that typically includes fencing and/ or landscape plantings that abut property lines where the transition is most sensitive. • Mitigating issues of overlook/privacy, shadow impacts, and concerns about the visual impact of new buildings that are not the same character as the adjacent neighbourhood. • Applying stepbacks, angular plane, or linking the height of buildings with the width of the road right-of-way. | Transition between uses can be provided with setbacks and buffering. Buffering, including fencing and tree plantings, will be reviewed at the time of SPC approval. The building will be brought close to the road in order to provide additional setback from the abutting residential use to the north. |
| 3.1 - Height | Minimum and maximum building heights vary across the Mixed Use Centres, Nodes and Corridors and are outlined under Section 3.4 of the guidelines and defined in the Zoning By-law. In addressing height, these guidelines seek to: • Protect and maintain established sable and mature residential areas. • Ensure buildings form an appropriately scaled and designed street wall that reinforces the desired character at the street level. • Ensure appropriate height | The ZBL will regulate the height. Section 3.4 of the guideline ca be followed. The abutting residential uses will be protected with buffering and setbacks. The final design will be part of SPC approval. |

| OP Policy # | Policy | Response |
|-----------------------------|---|--|
| | taking into consideration existing and permitted heights; proportional relationships to streets; and, visual and physical impacts on pedestrians and adjacent areas. | |
| 3.1 - Scale and Massing | As in height, the scale and massing of buildings (the size of buildings) must be designed to: • Provide a respectful adjacency to other buildings and open spaces. • Consider how the building fits within its context. • Create a comfortable "human scale" experience along the streetscape and allow for physical and visual permeability. | The final design will be part of SPC approval. |
| 3.2.2 – Mixed Use Corridors | Mixed Use Corridors can accommodate a full range of residential, office, recreational, entertainment cultural, and community uses and facilities over time. Mixed Use Corridors are the connective spines of the City and intensification is envisioned to develop as mixed use and transit supportive. | The Site is located in a mixed use corridor. |
| | | The Site is a corner not and will create a new focus for the area. |
| | 2. Ensure buildings relate to adjacent streets, particularly at transit stops. Block patterns should be permeable, providing access and frontage among buildings | The proposed building will be brought close to the roadway. |

| OP Policy # | Policy | Response |
|--------------------------------|--|---|
| | along the Mixed Use Corridors. | |
| | 3. Design parking lots with planting strips and landscaped traffic islands, medians, or bumpouts to break up the expanse of hard surface areas. | The parking area will be located behind the proposed building. |
| | 4. Design buildings to be compatible with, and sensitively integrated with the surrounding land uses and built forms. Ensure appropriate transition to adjacent uses and built forms. | The final design will be part of SPC approval. Transition has been taken into consideration with setbacks and buffering. |
| 3.4 – Building Form Guidelines | Medium Profile Buildings A Medium Profile building is any building generally no greater than six (6) storeys in height. A Medium Profile building can be a landmark, a prominent destination, or a focal point of a community that provides a transition between stable neighbourhoods and High Profile buildings. | The proposed development is considered medium profile. The Site is a corner lot, which will create a landmark. |

Therefore, the proposed development will conform with the purpose and intent of the City of Windsor OP.

5.1.3 Zoning By-law

The City of Windsor Zoning By-law (ZBL) #8600 was passed by Council on July 8, 2002, and then a further Ontario Municipal Board (OMB) decision was issued on January 14, 2003.

A ZBL implements the PPS and the City OP by regulating the specific use of property and providing for its day-to-day administration.

According to Map 14 attached to the ZBL the Site is currently zoned Commercial District 2.1 (CD2.1) category (see Figure 4 – ZBL).

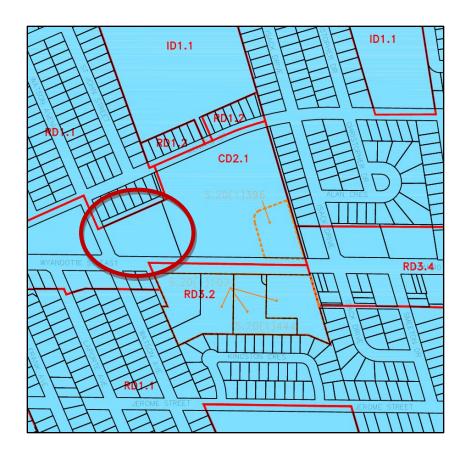

Figure 4 – ZBL

It is proposed to change the zoning to Residential District 3.2 (RD3.2 - S.20(1)(XXX)) category to permit a multiple dwelling.

MULTIPLE DWELLING means one dwelling containing a minimum of three dwelling units. A double duplex dwelling, semi-detached dwelling, stacked dwelling, or townhome dwelling is not a multiple dwelling.

A review of the RD3.2 zone provisions, as set out in Section 12.2.5 of the ZBL is as follows:

| Zone Regulations | Required RD3.2 Zone | Proposed | Compliance and/or Relief Requested with Justification |
|---------------------|---|-----------------------|---|
| Permitted Uses | Lodging House Multiple Dwelling Religious Residence Residential Care Facility Any of the following existing dwellings: Double Duplex Dwelling | one multiple dwelling | Subject to the ZBA. The proposed development is compatible with the existing area. |

| Zone Regulations | Required RD3.2 Zone | Proposed | Compliance and/or Relief Requested with Justification |
|--|--|--|--|
| Lot Frontage – minimum Lot Area – minimum | Duplex Dwelling Semi-Detached Dwelling Single Unit Dwelling Any use accessory to any of the preceding uses 30.0 m For a corner lot having a minimum frontage of 30.0 m on each of the exterior lot lines: a) For the first 5 dwelling units - 540.0 m2 b) For the next 19 dwelling units - 67.0 m2 per unit c) For each additional dwelling unit - 44.0 m2 per unit TOTAL - 4,541.0 m2 | approximately 50.0 m (Watson Ave) 7,836.9 m2 | Transition between uses can be provided with setbacks and buffering. The proposed building height will comply. There are similar zones to the south of the Site. Complies Complies |
| Lot Coverage – maximum | 35.0% | 20.7 % | Complies |
| Main Building Height - maximum | Corner Lot - 24.0 m | 21.0 m | Complies |
| Landscaped Open Space | 35.0% of lot area | 35.1 % | Complies |

| Zone Regulations | Required RD3.2 Zone | Proposed | Compliance and/or Relief Requested with Justification |
|--|---|------------------------------|---|
| Yard – minimum | | | |
| Dwelling Unit Density – dwelling units per hectare – maximum | For a corner lot having a minimum frontage of 30.0 m on each of the exterior lot lines – 188 units per ha | 111 units per ha | Complies |
| Parking Requirements - minimum 24.20.5.1 | Multiple Dwelling containing a minimum of 5 Dwelling units - 1.25 for each dwelling unit Total required = 107.5 (107 rounded down) | 108 | Complies |
| Visitor Parking – minimum 24.22.1 | 15 % | 15 % | Complies |
| Barrier Free Parking – minimum 24.24.1.1 | 26 to 100 – 2% type A and 2% type B = 2 type A and 3 type B (5 in total) | 2 type A and 3 type B = 5 | Complies |
| Bicycle Parking Spaces – minimum 24.30.1.1 | 20 or more - 2 for the first 19 spaces plus 1 for each additional 20 parking spaces = 2+4.45 =6.45 (6 rounded down) | 8 | Complies |
| Loading – minimum 24.20.1.5 | Over 1,000 m ² to 7,500 m ² - 1 | 1 | Complies |

| Zone Regulations | Required RD3.2 Zone | Proposed | Compliance and/or Relief Requested with Justification |
|--|--|---|---|
| Parking Area Separation – minimum 25.5.20.1 | .2 Any other street – 3.00 m | 5.9 m – Watson Ave | Complies |
| | .3 An interior lot line or alley – 0.90 m | 3.0 m – north lot line 4.5 m – east lot line | Complies |
| | .5 A building wall in which is located a main pedestrian entrance facing the parking area – 2.00 m | 5.5 m | Complies |
| | .6 A building wall containing a habitable room window or containing both a main pedestrian entrance and a habitable room window facing the parking area where the building is located on the same lot as the parking area – 4.50 m | 5.5 m | Complies |

Therefore, the proposed development will comply with all zone provisions set out in the RD3.2 Zone and no relief is required.

6.0 SUMMARY AND CONCLUSION

6.1 Context and Site Suitability Summary

6.1.1 Site Suitability

The Site is ideally suited for residential development for the following reasons:

- The land area is sufficient to accommodate the proposed development,
- The Site is generally level,
- The Site will be able to accommodate municipal water, storm and sewer,
- There are no anticipated traffic or parking concerns, and
- The location of the proposed development is appropriate.

6.1.2 Compatibility of Design

The proposed development will be a compatible density for the Site and with the surrounding area.

The proposed residential use will provide a new housing choice in an existing built-up area.

The Site is capable of accommodating the proposed development in terms of scale, massing, height, and siting.

The building will be located away from the abutting residential use and the lands to the north will provide additional buffering.

Parking, amenity areas, sidewalks and landscaping will be provided.

6.1.3 Good Planning

The proposal represents good planning as it addresses the need for the development of a parcel of land, which contributes to affordability and intensification requirements.

Residential use on the Site represents an efficient development pattern that optimizes the use of land.

There is similar zoning in the area.

The Site was always intended for development.

6.1.4 Environment Impacts

The proposal does not have any negative impact on the natural environment.

6.1.5 Municipal Services Impacts

There will be no negative impacts on the municipal system as the proposed use will not add to the capacity in a significant way.

6.1.6 Social, Cultural, and Economic Conditions

The proposed development does not negatively affect the social environment as the Site is in close proximity to major transportation corridors and nearby amenities.

Infilling an existing built-up area of the City contributes toward the goal of 'live, work and play' where citizens share a strong sense of belonging and a collective pride of place.

The proposed development promotes efficient development and land use patterns that sustain the financial well-being of the City.

The proposal does not cause any public health and safety concerns. ERCA permit will be obtained.

The proposal represents a cost-effective development pattern that minimizes land consumption and servicing costs.

There will be no urban sprawl as the proposed development is within the existing settlement area and is an ideal infilling opportunity.

There are no cultural heritage resources that impact the Site.

6.2 Conclusion

In summary, it would be appropriate for the City of Windsor to approve the ZBA application to permit the proposed development on the Site.

This PRR has shown that the proposed development is consistent with the PPS, conforms with the intent and purpose of the OP and ZBL and represents good planning.
