1. Mix half-and-half, sugar, and vanilla in a small bag.
2. Fill a larger bag halfway with ice and salt, place the small bag inside, and seal.
3. Shake vigorously for 5–10 minutes until the mixture thickens. Rinse the small bag and scoop out the ice cream. Add toppings like sprinkles or chocolate syrup

Gross Motor Skills Improvement

Movement activities often involve large muscle groups, which are essential for gross motor skill development. Dancing, jumping, clapping, and other rhythmic movements help children strengthen muscles, improve coordination, and develop balance. These activities foster body awareness and control, which are crucial as children learn to walk, run, and engage in more complex physical tasks.
