What Can I Do?

Encountering Someone Experiencing a Mental Health Crisis

SIGNS The person might be upset, confused, or talking to themselves. They could be pacing, crying, or showing signs of distress.

- ACTIONS**
- ⚠️ Ensure Your Safety First. Stay Calm, Keep a Safe Distance, or Walk Away if You Feel Unsafe.
 - 📞 Call 911 If There's Immediate Danger.

If You Feel Safe and Comfortable to Help, Consider These Steps:

- 👂 Listen to the Person and Show You Care.
"I can see that this is really hard for you."
- 👂 Offer Support, Not Solutions.
"It's OK to feel this way. Let's find a way through it together."
- 👂 Use Non-Threatening Body Language.
Face them and nod to show you're listening.
- 👂 Use Non-Stigmatizing Language.
Stigma can shape opinions and stop people from getting help. "What you're going through is real and important" is a good way to avoid blame.
- 📞 Call 911 if There Are Safety Risks to the Person or Others, or Threats of Self-Harm or Harm to Others.
- 📄 Share Information About Local Mental Health Resources, Available on Page 11.
- 👂 Follow Up with the Person if Possible.

Call 911 or go to your nearest emergency department if you're facing immediate safety risks or feel like you're a threat to yourself or others. Available 24/7.

Non-Emergency? Call the Windsor Crisis Response Team (CRT) at 519-255-6700 ext. 4203 to help people presenting symptoms of mental illness, substance use, behavioural disorders, or people in acute crisis situations within the City of Windsor.

For Immediate Mental Health Support:

- Call Community Crisis Services at 519-973-4435. 📞 Available 24/7
- Call or text the Suicide Crisis Helpline at 988. 📞 Available 24/7
- Visit the Mental Health and Addictions Urgent Crisis Centre at 1030 Ouellette. 519-257-5111 ext. 77968.

Encountering Someone Experiencing a Substance Use Crisis

SIGNS

The person could be unconscious or showing signs of an overdose (e.g., difficulty walking, blue or grey lips or nails, very small pupils, cold and clammy skin, confused, snoring/gurgling sounds).

ACTIONS

⚠️ **Ensure Your Safety First. Stay Calm, Keep a Safe Distance, or Walk Away if You Feel Unsafe.**

☎️ **Call 911 if There's Immediate Danger.**

If You Feel Safe and Comfortable to Help, Consider These Steps:

- 1 Call 911 Immediately.**
In an overdose emergency, call 911 right away. *The Good Samaritan Drug Overdose Act* offers some legal protection for people who experience or witness an overdose and **call 911**. Learn more in the resources section at www.wecoss.ca

- 2 Shout 'hello' and shake their shoulders to check if they respond.**

- 3 Give Naloxone if you think it's an opioid overdose.**

How to Use Naloxone Nasal Spray:
Lay the person on their back and gently insert the tip of the nozzle into their nostril. Press the plunger to give the dose of Naloxone. **Do not** test the spray before you administer.

Note: *Naloxone is unlikely to cause harm if given to someone experiencing a non-opioid overdose, but it won't help either. Naloxone only works for opioid overdoses.*

- 4 Perform chest compressions (push hard and fast) or start CPR if trained.**

- 5 If no response after 2 to 3 minutes, repeat steps 3 and 4 (alternating nostrils) until the person responds or EMS arrives.**

If the person responds, place them in the recovery position.

- 6 Provide detailed information when emergency responders arrive.**

For example, the substances involved if known, time of overdose, and if Naloxone was administered.

Opioids are drugs that include legal pain relievers (like morphine and fentanyl) and illegal drugs (like heroin). They have a high risk of addiction. If prescribed, follow the dosage, know the side effects, keep your medication safely secured, and dispose of unused or expired medicine at your local pharmacy. Learn more in the resources section at www.wecoss.ca

Tips for Safer Substance Use

- Never use alone.
- Try a very small amount first – “start low, go slow.”
- If you use with a friend, do not use at the same time.
- Avoid mixing substances.
- Have Naloxone ready. Know how to respond to an overdose.
- Call the National Overdose Response Service 24/7 hotline at **1-888-688-6677** for confidential support when using substances.

If you are experiencing a substance use crisis, call 911, contact Community Crisis Services at 519-973-4435, or go to your nearest emergency department.

Non-Emergency? The Nurse Police Team helps with non-emergency substance use related incidents within the City of Windsor. Call the Windsor Police Service Non-Emergency line at 519-258-6111 for help.

Found a Needle?

If you find a needle on **City of Windsor property**, treat it as used and **call 311** to report it and arrange for disposal.

If you find a needle on your **private property**, treat it as used and follow these steps:

- 1 Wear gloves to protect from fluids.**
- 2 Use tongs or tweezers to pick up the needle by the middle of the syringe, with the sharp end facing down.**
- 3 Place the needle in a sharps container or a puncture-proof, sealable container and close it tightly.**
- 4 Remove gloves and wash your hands or use hand sanitizer.**
- 5 Dispose of the container at a sharps disposal bin or local pharmacy.**

Landlords or property managers should contact a biohazard company for large quantities, consider installing sharps disposal bins (from local pharmacies), and report finds to **311** for data collection.

DO NOT:

- ✗ **Throw loose sharps in the garbage.**
- ✗ **Put sharps in the recycling bin.**
- ✗ **Flush sharps down the toilet.**
- ✗ **Dispose of sharps in bushes, parks, or streets.**

A list of 24-hour sharps disposal bin locations can be found in the resources section at www.wecoss.ca

SIGNS People involved in a conflict may have raised voices, use aggressive language, display threatening physical gestures (e.g., pointing fingers, clenching fists), and be in visible distress or fear.

ACTIONS  **Ensure Your Safety First. Stay Calm, Keep a Safe Distance, or Walk Away if You Feel Unsafe.**

"I think it would be helpful if we could keep the discussion focused on the issue, not on personal attacks."
-  **Get Help if There is Violence or the Situation Continues to Escalate.**
Call the Windsor Police Non-Emergency Line at **519-258-6111** or **call 911** if there is immediate danger.

Witnessing Someone Being Discriminated Against or Experiencing Racism

SIGNS The person may be subjected to racial slurs, derogatory comments, or insults based on their race or ethnicity. Intentionally excluded someone from an activity and displaying hostile body language, such as glaring or rolling eyes can also be indicators of discriminatory behaviour.

ACTIONS  **Ensure Your Safety First. Stay Calm, Keep a Safe Distance, or Walk Away if You Feel Unsafe.**
 **Call 911 if There's Immediate Danger.**

If You Feel Safe and Comfortable to Help, Consider These Steps:

-  **Stay Calm and Non-Confrontational.**

Use "I" statements instead of "You" statements. "I feel uncomfortable when I hear comments like that."
-  **Show Support.**

I have been sober since October 4th, 2004. I have been through numerous challenges that would sink any boat. I have been through so many tragedies, two daughters in Heaven, yet so many miracles. Finding help, I was able to change my whole perception, reveal it to feel it, to heal it, and now I can go through each day and hopefully inspire others to just hold on."
