Staff.

I love working with all the kids of different ages and backgrounds. Getting to joke around with all the kids, helping them reach their goals is the best part about working with youth. Working with them everyday on their spelling and seeing their faces when they get a good grade on their test, they previously struggled with makes everything worth it.

I really loved this course. The facilitators were very engaging, and gave opportunities for practical exercises. The discussions were also very interesting and helped me to learn a lot about housing, managing finances and effective communication. Alona and Hana are fantastic and welcoming!
