

CABANA CORRIDOR IMPROVEMENTS PHASES 3 & 4 ROAD CLOSURE APPROACH

Daytona Avenue

- 2005 Environmental Assessment identified a road access from Daytona Avenue to Cabana Road
- This recommendation is not supported through detailed design as Daytona has a cul-de-sac with access to Cabana Road available via Northway Avenue.
- The existing curb cut will be replaced with a barrier curb and the granular laneway will be replaced with topsoil and seed.
