

SEWER MASTER PLAN

The City of Windsor is initiating a Sewer Master Plan to confirm the risk of flooding across Windsor and look at ways to make the city more resilient.

Your participation in the Sewer Master Plan process will improve the results and help us create a plan that we can implement together. Consultation is an integral part of this process and members of the public, agencies, Indigenous communities and other interested persons are encouraged to participate in the master planning process:

- ▶ Find out more about the project and tell us your flooding story by visiting the project web site: weatheringthestorm.ca
- ▶ Come talk to us at the *weathering the storm* booth at the **Earth Day 2018 event on April 22nd at Malden Park**
- ▶ Sign up to the project contact list for future information through our website or by contacting one of our team members on the back of this notice
- ▶ Apply by April 13, 2018 to be a member of the project Stakeholder Advisory Committee (*application on the project website or contact team representatives on back of this notice*)

Over the past few years, thousands of homes were impacted by flooding both in the city and in the surrounding areas. In early fall 2017, the Mayor released a Sewer Master Plan aimed to assist the Windsor community with its flooding issues. A key element of the plan is to update the City's Sewer Master Plan. The Master Plan will confirm the areas that are vulnerable to flooding, identify reasons for the flooding, generate and evaluate short and long-term alternative solutions, and develop a long-range implementation strategy to manage flooding in the City.

Public Information Centres (PIC) will also be held to present information and obtain your input. The first PIC is anticipated for spring 2018.

This study will be carried out over a 24 month period and will be conducted in accordance with the Master Plan Approach No. 2 of the Municipal Class Environmental Assessment (EA) (Municipal Engineers Association, 2015) process. Work will fulfill EA requirements for Schedule B projects and complete Phases 1 and 2 of the process for Schedule C projects.

All comments and information received from individuals, stakeholder groups and agencies regarding this study are being collected to assist the City of Windsor in completing the Sewer Master Plan. Information will be collected in accordance with the Municipal Freedom of Information and Protection of Privacy Act and with the exception of personal information, all information provided will become part of the public record. This notice is also available on the City's website at: <https://www.citywindsor.ca/residents/Construction/Environmental-Assessments-Master-Plans>, under 'Environmental Assessment Studies and Master Plans'.

If you are interested in being placed on the project contact list to receive future information, or if you have any questions, please contact either of the project representatives:
