

NON-STANDARD DRIVEWAY WAIVER

Re: Driveway Permit Waiver -

This waiver confirms that the proposed driveway material located at is not standard as per City of Windsor Standard Specifications AS-221 or AS-222 (ie. stamped concrete, coloured concrete, exposed aggregate, interlocking brick, etc). In the event that future construction requires that any portion of your driveway be removed, your driveway will be re-constructed using standard, broomed, non slip white concrete finish driveway within the public right of way.

Prior to the City issuance of a Driveway Permit, you are required to sign and return this waiver, acknowledging the terms of re-construction if future work within the right-of-way requires any removal of your non-standard driveway.

Should you have any questions or concerns, please contact the Right-of-Way Division at 519-255-6257 for further information.

Re: Re-construction Installation -

I _____, the property owner of _____, agrees that in the event that future work within the right-of-way requires the removal of any portion the driveway at the noted address, the Corporation of the City of Windsor shall install a standard, broomed, non slip white concrete finish driveway within the right-of-way. The use of sealant within the Right-of-Way is prohibited. Sidewalks must be broomed finish and continuous through the driveway approach as per City Standards. It is further understood and agreed that this waiver shall be binding upon and ensure to the benefit of the parties hereto and their respective successors and assigns.
